My two favorite library resources are…

Think of the best experience you've every had when using a research library. If you could do something to make it even better, what would it be?

I wish the Dana librarians knew…

…that it can be difficult
to find online journals.

…that I don't know
how to use MeSH in
Medline.

…quiet rooms work best for
me during research/studying.

…how I love paper journals!

…that I'm probably not as good at
doing online research as I think I am.

…how important their
role is in patient care.

…I'm not very comfortable with EndNote.

…that the Giants are better than the Patriots.

Medical Subject Headings ?

Controlled vocabulary thesaurus produced by the NATIONAL LIBRARY OF MEDICINE. It consists of sets of terms naming descriptors in a hierarchical structure that permits searching at various levels of specificity.
Year introduced: 2005

PubMed search builder options
Subheadings:

☐ history ☐ statistics and numerical data ☐ utilization
☐ organization and administration

☐ Restrict to MeSH Major Topic.

☐ Do not include MeSH terms found below this term in the MeSH hierarchy.

Tree Number(s): L01.453.245.945.700.500
MeSH Unique ID: D046650
Entry Terms:

- Medical Subject Heading
- Subject Heading, Medical
- Subject Headings, Medical
- MeSH Headings

Previous Indexing:

- Subject Headings (1969-2004)

What's Next?

- Review the workshop design to correct weak elements

- Adopt assessment tool

- Share data with residency program directors & colleagues

- Build on success by expanding our connection to residents
